

FIRE AND SMOKE RESTORATION TECHNICIAN CLASS

October 15 & 16, 2024
8:00 A.M.- 4:00 P.M.

Redwood Empire Schools' Insurance Group (RESIG) is pleased to offer the initial 2-day *Fire and Smoke Restoration Technician (FSRT)* course. The course will be presented at RESIG's Conference Center located at 5760 Skylane Blvd., Suite 100, in Windsor, California on October 15th and 16th, 2024. This course is accredited through the *Institute of Inspection, Cleaning and Restoration Certification (IICRC)*. The course will be conducted by the Academy of Textiles and Flooring (ATF). ATF is an accredited IICRC course provider. The Fire and Smoke Restoration Technician course concentrates on technical procedures and protocols for successfully conducting the restoration of a fire and smoke damaged environment. Students will learn how to combine technical procedures with practical approaches for managing fire and smoke impacted environments including deodorization of fire and smoke damaged structures.

Topics addressed in the course include:

- ✓ Characteristics and types of smoke
- ✓ Conducting inspections of fire and smoke damaged structures
- ✓ Inspection procedures
- ✓ Restoration chemicals, supplies, and equipment
- ✓ Deodorizing and odor control of smoke damaged environments
- ✓ Restoration options
- ✓ Furnace systems and duct work
- ✓ Structural cleaning
- ✓ And more

Who Should Attend: Facilities personnel, M&O Directors and Supervisors, and staff responsible for building hygiene and safety.

Class size is limited to 20 students so please register ASAP by emailing wdavis@resig.org. Email responses are preferred to ensure names are spelled correctly on certificates.

Registration for this course closes on Monday October 7th, 2024.

Please contact Will Davis at wdavis@resig.org if you have any questions regarding this course.
